

L Number	Hits	Search Text	DB	Time stamp
11	184	\$crypt\$ and key with management and store with key and (volatile RAM) with key	USPAT	2003/12/11 09:27
14	89	\$crypt\$ and key with management and store with key and (volatile RAM) with key not (non?volatile with key)	USPAT	2003/12/11 09:28
15	82	\$crypt\$ and key with management and store with key and (volatile RAM) with key not (non?volatile with key) and (creat\$4 establish generat\$4) with key	USPAT	2003/12/11 10:02
17	182	(encrypted obfuscated) with key with (RAM volatile)	USPAT	2003/12/11 10:04
19	24	(encrypted obfuscated) with key with (RAM volatile) with stored with (table file database)	USPAT	2003/12/11 10:06
23	24	380/277.ccls. and "key file"	USPAT	2003/12/11 13:58
25	16	380/277.ccls. and "key file" and integrity	USPAT	2003/12/11 14:02
26	8	380/277.ccls. and "key file" and integrity and (volatile RAM) with key	USPAT	2003/12/11 14:04
34	81	(generat\$5 creat\$4 establish\$4) with key with (file "data base" database "data store" datastore table list) and key with (RAM volatile) with (file "data base" database "data store" datastore table list) and (713/\$.ccls. 380/\$.ccls.)	USPAT	2003/12/11 16:28
41	16	table with hash with encryption with key	USPAT	2003/12/11 16:34
-	159	encrypt\$6 with (section part table row column) same database	USPAT	2003/12/05 16:32
-	110	encrypt\$6 with (section part table row column) same database and (automatic\$4 transparent\$4)	USPAT	2003/12/05 16:39
-	56	encrypt\$6 with (section part table row column) same database and (automatic\$4 transparent\$4) and DES	USPAT	2003/12/05 16:48
-	17	encrypt\$6 with (section part table row column) same database and (automatic\$4 transparent\$4) and DES near triple	USPAT	2003/12/05 16:40
-	41	encrypt\$6 with (section part table row column) same database and (automatic\$4 transparent\$4) and DES not ginter.in. not guheen.in.	USPAT	2003/12/08 15:34
-	183	encrypt\$5 with key with (management admin\$7) and key with (identifier id pointer name) and key with table	USPAT	2003/12/08 15:40
-	46	encrypt\$5 with key with (management admin\$7) and key with (identifier id pointer name) and key with table and key same (volatile RAM)	USPAT	2003/12/08 15:42
-	173	key same mode same length and encryp\$6	USPAT	2003/12/08 16:26
-	8	key same mode same length same table and encryp\$6 and (manag\$5 admin\$5) same table	USPAT	2003/12/09 08:57
-	1	admin\$5 and encrypt\$5 same "key length" same integrity	USPAT; US-PGPUB	2003/12/09 09:24
-	15	encryp\$5 with (type method mode) same key with (size length) same integrity	USPAT; US-PGPUB	2003/12/09 10:42
-	1	("5369707").PN.	USPAT	2003/12/09 13:56
-	5	(set change edit different) with encrypt\$5 same key with (size length) same integrity	USPAT; US-PGPUB	2003/12/09 10:54
-	549	(set change edit) near encrypt\$5	USPAT	2003/12/09 10:56
-	28	(set change edit) near encrypt\$5 near (type mode method)	USPAT	2003/12/09 10:56
-	5	(set change edit) near encrypt\$5 same (length size) same integrity	USPAT	2003/12/09 11:01
-	21	encrypt\$5 near column	USPAT	2003/12/10 10:26
-	86	(select pick choose set) same encrypt\$5 same (method type system method) same administrator	USPAT	2003/12/09 11:13
-	21	(select pick choose set) same encrypt\$5 near (method type system method) same administrator	USPAT	2003/12/09 11:13
-	8	deny with admin\$6	USPAT	2003/12/09 12:17

-	4	"security administrator" and "database administrator" and "user administrator" key with stor\$4 and (establish or generate) same key and key same (ID identifier name) and volatile near key "6185681"	USPAT	2003/12/09 12:23
-	15	key with stor\$4 and (establish or generate) same key and key same (ID identifier name) and volatile near key "6185681"	USPAT	2003/12/09 12:51
-	1	encrypt\$5 near column same table	USPAT	2003/12/10 09:44
-	15	deny near administrator	USPAT	2003/12/10 11:08
-	4	(deny prevent) with (administrator)	USPAT	2003/12/10 11:12
-	328	(deny) with (administrator)	USPAT	2003/12/10 11:13
-	57	(deny) with (manager)	USPAT	2003/12/10 11:16
-	109	(deny) with (manager)	USPAT	2003/12/10 11:18
-	1	(deny prevent) with (administrator manager) and security adj (administrator manager) and user adj (manager administrator)	USPAT	2003/12/10 11:24
-	70	((distinct or different with (admin administrator manager)) and 713/\$.ccls.) and decrypt\$4 with (admin administrator manager)	USPAT	2003/12/10 12:27
-	72	((distinct different) with (admin administrator manager)) and decrypt\$4 with (admin administrator manager)	USPAT	2003/12/10 12:27
-	40	((((distinct different) with (admin administrator manager)) and decrypt\$4 with (admin administrator manager)) and 713/\$.ccls.	USPAT	2003/12/10 12:49
-	57	administrator adj level	USPAT	2003/12/10 12:50
-	13	administrator adj level and 713/\$.ccls.	USPAT	2003/12/10 12:54
-	1	("5052040").PN.	USPAT	2003/12/10 15:38
-	168	access same user same administrator and levels with (permisions rights)	USPAT	2003/12/10 15:40
-	115	access same user same administrator and levels with (permisions rights) same (users administrator)	USPAT	2003/12/10 15:43
-	28	access same user same administrator and levels with (permisions rights) with (distinct different one) same (users administrator)	USPAT	2003/12/11 08:55
